DISCOVER THE *joy* OF LEARNING

From The Principal's Desk...

Dear Readers,

At Gyanshree, excellence is not an act but a habit—a quiet, consistent pursuit that shapes not just achievements but the individuals behind them. It is this deeper meaning of excellence that our Shreeyans embody, time and again, through their unrelenting dedication, integrity, and purpose. This year, our *Shreeyans* from Grades 10 and 12 have reaffirmed this belief with their stellar performance in the CBSE Board Examinations. Their success is not merely reflected in numbers but in the mind set and values that powered their journey.

Among these brilliant young minds, *Akanksha Chauhan* stands tall with an extraordinary score of 99.75%—a result that speaks of unwavering discipline, clarity of thought, and an inner compass that always pointed towards excellence. Many others too have excelled with perfect scores in various subjects, including English, where 16 students of grade XII achieved a flawless 100. Infact each Shreeyan with their own iridescent brilliance forma a finely woven thread in the tapestry of our school's success stories in all domains of pedagogy.

Be it the exceptional scores of our Grade 10 *Shreeyans*, the remarkable subject toppers of Grade 12, or those who shone in sports and co-curricular pursuits—each accomplishment is a result of unwavering effort and well-earned success. Though personal in endeavour, these milestones echo a shared spirit of determination and stand as a powerful testament to what passion fused with perseverance can achieve.

May these stories serve as a gentle reminder that excellence is not about competing with others, but about staying committed to our growth, our purpose, and our principles. Let us continue to walk our unique paths with courage and conviction, for true success lies not just in standing apart, but in standing true to who we are.

With enduring pride and unwavering hope,

Mrs Priyanka Bhatkoti
Principal

Student Editorial...

“Life is like riding a bicycle. To keep your balance, you must keep moving.”

— Albert Einstein

Everything in this world is on its own journey — and none of these journeys is a race. Animals, plants, and even galaxies follow their own timelines. Planets in the Milky Way revolve around the sun at their own pace. Earth doesn't stop spinning just because Mercury moves faster.

So why should we, as humans, feel that we're falling behind or not where we're 'meant' to be?

The truth is, we're all on our own unique journeys. As one star fades, another begins to shine. As one life ends, somewhere another begins. And just as one batch of students leaves the portals of the school, another enters to carry the legacy forward.

This year, as Gyanshree celebrates a decade of learning, our Shreeyans continue to write their own stories. From the World Scholar's Cup to the Harvard Debates, each student is moving ahead in their own direction, at their own pace. They're not just chasing milestones — they're creating meaning.

We are also inspired by the awe-inspiring achievements of our seniors, whose exceptional results have not only made us proud, but also left behind a trail of excellence for us to follow.

Every book ends with a final sentence. Every show has a last scene. Every life takes its last breath. And it is precisely this impermanence that reminds us to keep moving forward — always; for in progress lies hope, and in hope, the courage to begin again.

As Mary Anne Radmacher said so wisely:

“Courage doesn't always roar. Sometimes courage is the quiet voice at the end of the day saying, ‘I will try again tomorrow.’”

So let us try again tomorrow. And the day after that. Because the journey ... our journey matters.
